February : Welcome to Merensky

[previous page](#)

8 February, 2016

Welcome to Merensky

We extend a heartfelt welcome to new client Merensky, one of the biggest forestry and sawmill companies in South Africa.

"We are very proud to be supplying Merensky," says Bertus. "The company is a respected and long-standing member of our industry, operating through the whole timber value chain, from plantations to treatment. In November last year, Dolphin Bay and Merensky reached an agreement for a substantial supply of timber from the company's depot in Belville. Our sales representative Braam Rust and Technical Advisor Gareth Jarvis have been offering our standard technical services, which we believe added value to the Merensky operation."

our service agreement, Dolphin Bay also installed a stainless steel bulk tank for the delivery and use. "This agreement with Merensky is quite an achievement, and the company can be assured that we will continue to find ways to continue providing them with outstanding value and service," says Braam.
